I participated in the mobility meeting in KIRSEHIR (TURKEY) 30.04.2015 - 2.05.2015

I participated in a number of activities, study visits and workshops including:

- Visiting local people.
- Visiting some local farms. We saw fields and animal and the owners shown as how they work.
- Visiting a national agriculture centre where they make seeds and products to improve productivity of local farmers.

I have gained new skills and knowledge, one of the most interesting is:

- Skills about how to work with vegetables, especially in small fields.
- Intercultural learning with other culture.
- The importance of the local production because is more sustainable.

The main ideas, methods, tools and best practice approaches that I can use in my own professional and personal life are:

- I realized how important it is local production for the maintenance of rural areas.
- I learnt some skills in agriculture that I can use in my future.

With regard to the development of my personal and professional competences, I believe that I have developed new skills or developed existing skills in the following areas. If I have circled number 1 this is because it has not been relevant to me on this occasion and there has been no impact, if I have circled number 5 this is because it has been very relevant to me and there has been a very significant impact, I have also described why I have given my answers:
